## See What's New at Saxton B. Little

Are you looking for an easy way to see what's newly-arrived at Saxton B. Little, but you don't want to scroll through the carousels on the homescreen of our catalog? We have another option for you!

When we add new materials to our online catalog, we put code into the item's record to help sort out materials by where they're located in the library. For example, adult fiction books get the code "AF" put into the record, and adult DVDs include the code "ADVD."

Here's how to find out what's new at the Library, using the code "ADVD" as an example.

- 1. Go to <u>sax.agverso.com</u>. Make sure you're logged in to your library account if you're planning to place any reserves!
- 2. In the search bar, set the search to "Subject" and enter "ADVD." Click on the magnifying glass to search. You'll get a TON of results basically, every adult DVD we have in the library.
