

# How to Read a Library Book with Your Kindle

- 1) Go to the Overdrive website at [saxtonblittle.overdrive.com](https://saxtonblittle.overdrive.com)
- 2) Find a book to borrow. You can search for titles, browse through the collections, or click on **Kindle Books** on the top of the page.

- 3) Tap **Borrow** and choose your lending period.
- 4) From this page, you can click on **Read Now with Kindle**, or you can do this step from your **Loans** page.

5) Amazon will load in a new tab or window. Find **Get library book** on the right. If you are already signed in, confirm the device to which you want the book delivered with the drop-down menu and then click Get library book.

6) If you are not signed in, sign into your Amazon account, choose your device and click **Get library book**.

7) Your Kindle book will be delivered the next time your device syncs.

***Happy Reading!***
